TWO-STAGE GAS VALVE MULTI-SPEED GAS FURNACE

Comfort - Tech

Engineered for quality and comfort.

PERFORMANCE AND RELIABILITY

When you buy a Comfort - Tech 95% AFUE Multi-Speed Gas Furnace, you are purchasing long-lasting comfort at a good price. Comfort - Tech 95% AFUE Multi-Speed Gas Furnaces are designed to provide you with years of quiet, trouble-free service—and high-efficiency performance that means significant cost savings for you. Comfort - Tech 95% AFUE Multi-Speed Gas Furnaces are manufactured with quality components that you can rely on. These features include a quiet, corrosion-resistant induced-draft blower motor and a multi-speed direct-drive circulating blower to reduce the sound levels common in other furnaces. The unit is multi-position to fit any application, has a durable Silicon Nitride Ignition System, and has integrated controls with diagnostics for further reliability.

FEATURES

- Aluminized-Steel Tubular Heat Exchanger
Stainless-Steel Recuperative Coil
- Lifetime Heat Exchanger Limited Warranty PLUS
10-Year Unit Replacement Limited Warranty
- 95% Efficiency
- Quiet, Comfortable Heating
- Durable Silicon Nitride Igniter
- Fully Insulated Cabinet
- Baked-Enamel Finish
- Multi-Speed, Direct-Drive Blower

FOR CONSISTENT HEATING COMFORT YOU CAN COUNT ON

Unlike conventional, single-stage furnace technology, Comfort - Tech's two-Stage Gas Valve Technology eliminates the temperature swings resulting from abrupt, high-stage stops-and-starts of the furnace by operating at a low heating stage the majority of the time. This enables your Comfort - Tech Gas Furnace to gradually and pleasantly increase the temperature of your home environment. And if low-stage heating doesn't warm your home to the desired temperature quickly enough, your Gas Furnace will shift into high stage to ensure your comfort.

Benefits of Two-Stage Gas Valve Technology Include:

- Quiet furnace operation
- Virtual elimination of the stagnant pockets of air that can form when the furnace stops running
- Increased air filtration providing improved air quality

95% AFUE TWO-STAGE GAS VALVE MULTI-SPEED GAS FURNACE

Average Yearly Heating Costs*

95% AFUE: \$2,693

60% AFUE: \$4,264

A new Comfort - Tech **95% AFUE Gas Furnace** could save you up to 37% on your heating bills when compared with older units, assuming new and previous units are sized to provide the same output capacity.

*Costs determined using the EnergyStar® savings calculator provided by the DOE and EPA. These figures are for comparison purposes only; actual costs will vary according to personal use habits, square footage, location, how the unit is installed, the construction of your home and the area of the country in which you live.

UNBELIEVABLE WARRANTY

The performance of a Comfort - Tech 95% AFUE Multi-Speed Furnace, high-quality aluminized-steel tubular heat exchanger is guaranteed with an unbelievable **10-Year Unit Replacement Limited Warranty**: if the furnace's heat exchanger fails during the first 10 years after installation while in the possession of the original owner, the owner will receive a new, comparable Comfort - Tech furnace for free. After the 10-year period, the unit reverts to a **Lifetime Limited**

Heat Exchanger Warranty, one of the strongest warranties in the industry. Additionally, the unit is protected by a **10-Year Limited Warranty** on all functional parts.*

*Online registration required within 60 days of installation. Additional restrictions may apply.

ENERGY STAR

Plus, at 95% AFUE, your multi-speed furnace meets the high-efficiency standards of the Environmental Protection Agency's Energy Star Program initiative.
